Lingjun Meng

PG14, Imperial College London, London SW7 2AZ, United Kingdom
l.meng23@imperial.ac.uk | lingjun-meng.github.io

Education

Imperial College London, London, UK — 2023 – present
PhD in Analytics & Operations, Imperial College Business School
Advisors: Prof. Wolfram Wiesemann and Prof. Ryan Cory-Wright

Swiss Federal Institute of Technology in Lausanne (EPFL), Switzerland — 2021 – 2023
MSc in Mechanical Engineering

Xi'an Jiaotong University (XJTU), China — 2016 – 2020
BEng in Energy Engineering

Research Interests

Data-driven decision-making under uncertainty, in particular modeling, tractable approximations and algorithms for distributionally robust optimization, with applications in supply chain, service and sustainable operations.

Working Papers

L. Meng, R. Cory-Wright, and W. Wiesemann. "A shrinkage path heuristic for Wasserstein distributionally robust optimization." Submitted, 2026. [arXiv] [Optimization Online] [GitHub Repo]

Publications

L. Meng, J. Coldenhoff, P. Kendrick, T. Stojkovic, A. Harper, K. Ratmanski, and M. Cernak. "On real-time multi-stage speech enhancement systems." *IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP)*, 2024. [paper] [website]

Presentations

INFORMS Annual Meeting, San Francisco, USA — 2026
INFORMS Annual Meeting, Atlanta, USA — 2025

Teaching

Teaching Assistant, Imperial College London — Fall 2024, 2025, 2026
Math and Statistics Foundation for Analytics (MSc Business Analytics)

Honors and Awards

LISS DTP Scholarship, full PhD funding with a GTA top-up — 2023 – present
EPFL Excellence Fellowship — 2021 – 2023

Industry Experience

Logitech Europe S.A., CTO Office, Switzerland — Feb. – Aug. 2023
Research Intern, advised by Dr. Milos Cernak
Two-stage learning for real-time speech signal separation and enhancement
